About NFSU Guwahati Campus

NFSU-Guwahati Campus is the 9th Campus of NFSU in India and the main campus in northeast India, which was established, and its transit campus was inaugurated by the Honorable Home Minister of India on 25th May 2023 at Guwahati, Assam. The campus is engaged in imparting high-quality education and research in Forensic and allied sciences and is ready to provide training and consultancy services to all law enforcement agencies and similar organizations from both public and private sectors. One of the major objectives of NFSU Guwahati campus is to promote Forensic Science education in north-east India, produce scientifically and technically sound Forensic experts through education, skill development and training and strengthen the criminal justice delivery system. The campus will impart training to professionals in diverse area of forensic sciences (Crime Scene Management, DNA Forensics, Analysis of Narcotic Drugs and Psychotropic Substances, Ballistics Studies and Post Blast Investigations, Forensic Document Examination, Forensic Psychology, Homeland Security, Cyber Security and Digital Forensics) from government and private organization from East and North East Indian states as well as from neighboring countries.

The NFSU Guwahati Campus is presently functioning from its transit campus, situated at Guwahati Medical College, Narkasur Hilltop, GMCH Road, Bhangagarh, Guwahati, Kamrup (M), Assam – 781032.

The campus presently runs four academic programs under 2 different schools.
Under School of Forensic Science, there are two academic programs –

- (i) M.Sc in Forensic Science (2 Years)
- (ii) Professional Diploma in Crime Scene Management (6 Months)

Under School of Cyber Security and Digital Forensics, there are two academic programs-

- (i) B.Tech-M.Tech in Computer Science & Engineering (Cyber Security) (5 years)
- (ii) Professional Diploma in Cyber Crime Investigation (6 Months)

With its excellent infrastructural facilities, a large pool of highly qualified faculties and forensic professionals, large integrated network of various NFSU campuses and Forensic Laboratories and through its great strategic location, NFSU Guwahati is ready to serve as an International hub for forensic Education, Training and Skilling for all neighboring Indian states and east Asian countries.

Vision :

NFSU Guwahati Campus aims to be a truly world class institute in the area of Forensic and Allied Sciences by inculcating ideal academic environment with quality Teaching, Research & Innovation work, providing Training and Consultancy Services and Produce highly skilled forensic professions in the Northeast Region of India.

Mission :

Our mission is to realize our vision by :-

Imparting quality education and research in various domains of forensic sciences with a focus on the needs of north east India. Conducting rigorous training activities involving various stakeholders of law enforcement agencies and help the criminal justice delivery system. Providing consultancy services to government and private organizations from India and abroad related to crime investigation and crime prevention. To do collaborative academic and research activities with eminent national and international educational institutes and industry R&Ds.

Best Practices

- Quality teaching by eminent professors and senior forensic scientists of state and central FSLs.
- Hands on experience on laboratory techniques to investigate various crimes.
- State of the art infrastructure is provided with smart classrooms including audio visual systems, laboratory equipped with latest facilities and sophisticated instruments.
- Doing collaborative academic and joint research activities with various universities and industries.

Dr. J. M. Vyas
Padma Shree Awardee
Founder Vice-Chancellor
National Forensic
Sciences University

Dr. J. M. Vyas is the Founder and First Vice Chancellor of unique and highly specialized "National Forensic Sciences University, erstwhile GFSU, Gandhinagar (An Institution of National Importance) established by the Government of India. He served as a Director General of Gujarat Forensic Sciences University (GFSU) from February-2009 to September-2020. He is the senior most forensic scientist of the country and possess a vast experience of 50 years of working in Forensic field out of which, 27 years as Director of Forensic Science Lab. Dr. Vyas was appointed and has remained as the Organizing Committee member for INTERPOL for three consecutive terms. He is appointed as a member of Governing Council of Association of Indian Universities (AIU), New Delhi, member of Governing Council of international institute of Digital Technology (DT), Tirupati headed by Hon'ble Chief Minister of Andhra Pradesh member of "Governing Council of Indian Council of World Affairs (ICWA), New Delhi headed by Hon'ble Vice President of India.

He was also invited by "Parliamentary Standing Committee on Science & Technology, Environment, Forests & Climate Change Rajya Sabha Secretariat, Parliament of India for giving his view on various provisions of the DNA Technology Regulation Bill, 2019. Dr. Vyas has been the proud and deserving recipient of numerous awards and accolades. He was awarded with the President's Police Medal for meritorious services in forensic science on the eve of Republic Day in 1997. He was conferred the award as the Best Director of F.S.L. of the country in 2004 and Excellence Award for meritorious services as F.S.L. Director in 2009. He was bestowed with 'Life time Achievement Award' in the area of Forensic Chemistry by Amity University - Uttar Pradesh & All India Institute of Medical Sciences - New Delhi, in October 2008 and 'Bharat-mata Award' by Indian Institute of Oriental Heritage in 2014.

Dr. Vyas has following accolades credited to his name : "Distinguished International Forensic Scientist Award" in recognition of leadership and excellence in forensic science and education in the International Community by The Henry C. Lee Institute of Forensic science, University of New Haven, West Haven, USA, in October - 2018; "Lifetime Achievement Award" for outstanding contribution in the field of Forensic and Investigative Sciences at International Level by International Association of Police Academies (INTERPA), Turkey on 11th February, 2019; "Humanitarian Forensic Award" in recognition of exceptional services in the field of Humanitarian Forensics by International Centre for Humanitarian Forensics (ICHF) on 5th September, 2019

- Dr. J.M. Vyas, has been conferred with 'Padma Shri', one of the highest civilian Awards, in the year 2022, for his extraordinary, distinguished and commendable services to the society in the field of Science and Engineering. He has been appointed as a member of the Council of Scientific and Industrial Research (CSIR) in the year 2023.
- He is a globally renowned Forensic Expert who holds large number of publications in various journals of national & international repute.

Shri C. D. Jadeja
Executive Registrar
National Forensic
Sciences University

As an effective Administrator with the best conceptual skill, he is a strategic decision maker to run the University efficiently by maintaining high standards. He has vast experience of working as an Academic Administrator, and a Researcher. He is serving as an Executive Registrar of NFSU, an "Institution of National Importance". He is also a member secretary to various committees and boards to provide leadership, planning, organizing and managing all the activities related to records with regard to registry. Before serving at the world's first and only Forensic Sciences University; i.e. NFSU from 26 August 2014 and continuing, he had served in the premium institute like the IIM-Ahmedabad at a Higher Position where he had contributed as a researcher in the World Bank Project. He has 33 years of vast experience of working at premier education institute. All the experiences in the varied field of Academia and Administration made him a proactive professional and a congenial individual to make the Institution a world-class.

Prof. Prasenjit Maity
Campus Director,
National Forensic
Sciences University,
Guwahati Campus

Message from the Campus Director

A warm welcome to all of you to NFSU Guwahati Campus. It is my great pleasure to introduce you to this very special University, which has started its academic journey, very recently, from the academic year of 2024. The University is presently functioning from its transit campus situated at Guwahati Medical College, Narkasur Hilltop, Bhangagarh, Guwahati, Assam. The permanent campus is coming up at Molong area of Changsari, on the north bank of the river Brahmaputra.

As an institute of National Importance, NFSU Guwahati campus is committed to provide quality education and undertake cutting age research in the domain of forensic and allied sciences. The training, consultancy and forensic case analysis are also integral activities of NFSU Guwahati to support all north eastern states as well as neighbouring south Asian countries. Students wants to explore the world of forensic science and cyber security are welcome to NFSU Guwahati campus. Along with academic study, we also promote the culture of research, innovation and entrepreneurship among students from day one to support the make in India initiative of Government of India through commercialization of new products and technologies. With cutting age tools and best human resources available at our university along with the active collaboration with prominent institutions and law enforcement agencies, we are committed to transform our students to best forensic professionals to safeguard tomorrow's world. NFSU Guwahati campus aims to be a truly world class institute in the area of Forensic and Allied Sciences by inculcating ideal academic environment with quality Teaching, Research & Innovation work, providing Training and Consultancy Services and Produce highly skilled forensic professions in the Northeast Region of India. I invite you all to visit our campus and explore the world of forensics for safeguarding our society and making a peaceful and safer world.

Indian Literature

Infrastructure and Facilities

The current Campus of National Forensic Sciences University is equipped with modern facilities such as classrooms with projectors, laboratories, library, administrative wing and computer lab. The campus is centrally air-conditioned, eco-friendly, and equipped with high-security systems,, well-equipped & Ultra-moder laboratories, and a Learning Resource Centre with electronic and printed books & journals.

School of Forensic Science

The School of Forensic Science (SFS) was established to fill the skill gap and create expertise in the field of forensic science. SFS encompasses the core branches of forensic sciences and crime investigation, emphasizing the importance of research and the scientific environment.

Salient Features

- Ultramodern Infrastructure & Highly Qualified Faculty members
- Practical Based Learning & Exposure to Live Investigation
- Excellent Placement Opportunities
- Aims to develop expertise in allied sciences and fulfil the shortage of experts in the forensic specialization

Courses Offered @ NFSU Guwahati

- M. Sc. Forensic Science (2 Years)
- Professional Diploma in Crime Scene Management (6 Month)

School of Cyber Security & Digital Forensics

The School of Cyber Security and Digital Forensics offers specialized academic programs to create experts in Cyber Security and Digital Forensics to protect against cyber threats. The courses cover important technical concepts of cyber security and how they are applied in emerging areas such as device security and forensics and provide preventive measures to counter cyber-attacks.

Salient Features

- Offers specialized academic programs to create experts in Cyber Security and Digital Forensics to protect against cyber threats, covering technical concepts and providing preventive measures.
- Aims to sensitize people and impart technical knowledge and research skills to help prevent and counter cyber-attacks, providing a comprehensive solution for electronic system protection.
- Strives to enhance capabilities in the niche areas of cyber security and digital forensics and play a leading role in national cyber security and digital forensics.

Courses Offered @ NFSU Guwahati

- B.Tech-M. Tech in Computer Science and Engineering (Cyber Security) 5 Years
- Professional Diploma in Cyber Crime Investigation (6 Month)

Training

Training and Skill Development Centre of NFSU Offers Dedicated as well as Customized training modules in the field of Forensic Science and allied subjects. Highly Specialized training programs are offered to Police, Forensic, Judiciary, Forest and other officers of all ranks including officers from CBI, DRI, Railway Police, Law Enforcement Agencies, Government and Private Organizations, Research Scholars, Students and Forensic Professionals from India and Foreign Countries.

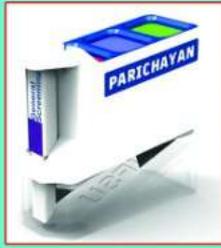

CONSULTANCY SERVICES

NFSU Consulting Services offers a unique blend of forensic science and technology to address current and future issues in organizations worldwide. They provide cutting-edge solutions to contemporary forensic issues, adding value to various sectors through their applicative tool-based programs.

- Molecular Identification (Wildlife species, Microbes)
- Identification and Quantification of Narcotic Drugs and Psychotropic Substances
- Identification of Explosives in Post Blast Residues
- Identification and Quantification of Poisons (i.e, Drugs, Pesticides, Metals, etc.) from Various Matrices
- Detection of Food Adulterants in Different Food Substances.
- Validation of Kits for Testing of Explosives and NDPS
- Evaluate and verify the quality and the safety of nutritional supplements used by athletes.
- Personal Identification of Fingerprints
- Document Examination and Tampering Analysis
- Investigation of Fraud, Forgery and Tampering Detection in Documents Analysis
- Tool Marks Shoe Print & Foot Print Examination
- Forensic Examination of Firearm Evidences
- Forensic Speaker Identification and Verification (Speaker Profiling)
- CCTV Footage Examination and Enhancement
- Facial Analysis and Recognition
- Data recovery from digital device
- Identification and analysis of digital evidence found inside computer, Mobile, Cloud and RAM
- Extraction and analyzes data from cloud data storages.
