## SCHOOL OF MANAGEMENT STUDIES

## INFORMATION BOOKLET

# NATIONAL FORENSIC SCIENCES UNIVERSITY

National Forensic Sciences University, the erstwhile Gujarat Forensic Sciences University is the brain child of Government of Gujarat. It was established by the Honorable Prime Minister of India Shri. Narendra Modi Ji, the then Chief Minister of Gujarat in 2009 with a sole objective of creating professional experts in the field of Forensic Sciences. At a juncture of spiking number of crimes involving sophisticated technologies and much evolved modus operandi, there was a need for scientists and technocrats. This has been prudently considered by the Government of Gujarat and the University came into existence as a unique and first of its kind academic institution dedicated to Forensic Sciences across the globe.

The National Forensic Sciences University with the status of an Institution of National Importance is the world's first and only University dedicated to Forensic, Behavioral, Cyber Security, Digital Forensics and allied Sciences.

It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world.

## VISION

- To fulfill the acute shortage of forensic experts in the country and the world.
- To make the world a better and safer place to live.
- To carry out research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science and Criminology.

## MISSION

- Education through investigation.
- To impart high quality education of international standards.
- To carry out research in the area of Forensic Science, Crime Investigation, Security, Behavioral Science and Criminology.

**“ I'm confident that the knowledge you've acquired at the NFSU will help you serve the country effectively and broaden the horizon of your professional success. ”**

**SHRI NARENDRA MODI** – Hon'ble Prime Minister of India

## FROM DESK OF THE VICE CHANCELLOR

I am delighted to state that, the National Forensic Sciences University has been scaling new heights since its inception as an Institution of National Importance (INI). With a rich history of academic excellence, University is devoted to providing high-quality education to the students. The university has made great efforts to gain international acclaim in this demanding field of specialization. Over the years, the institution has grown to become a Central University and also recognized as an 'Institution of National Importance. This recognition brings both pride and responsibility, as we endeavor to invest our time, energy and resources to the best of our abilities.

To cater to the increasing demand for domain experts and provide easy access to various specializations, the university has established the School of Management Studies (SMS) as one of its constituent schools at the Gandhinagar campus. The school offers specialized programmes in Forensic Management.

Forensic Management is an integral component of any forensic investigation, as it integrates management principles with specialized knowledge of forensic science. The programmes offered by SMS provide students with a comprehensive understanding of the management aspects of forensic science, enabling them to manage forensic investigations and make effective use of forensic evidence in legal proceedings. State-of-the-art facilities and equipment at the school provide students with hands-on experience in the latest forensic investigation techniques and technologies. All programmes offered at SMS are inclusive, modern and insightful, encompassing a wide range of subjects.

We would be delighted to welcome all interested in joining us and fostering an academic atmosphere at our university campuses. We look forward to welcoming you to the National Forensic Sciences University and becoming a part of our family.

**Padma Shri. Dr. J. M. Vyas**

Vice-Chancellor

National Forensic Sciences University

## FROM DESK OF THE CAMPUS DIRECTOR & DEAN

I am delighted to announce that the National Forensic Sciences University, has been making great strides as an Institution of National Importance (INI). Our primary mission is to augment expertise in the field of forensic science and its allied disciplines. In line with this objective, the School of Management Studies (SMS) offers various programmes aimed at improving competencies through innovative and experiential learning. The school provides specialized programmes such as Forensic Accounting and Fraud Investigation, Cyber Security Management, Business Analytics and Intelligence, Hospital & Healthcare Management, MBA Executive and BBA-MBA (Integrated).

The school's research focus ensures that our faculty members continuously develop new knowledge, which is shared with students to keep them abreast of the latest developments in the business world. We have sourced the world's best and cutting-edge technologies to create a research-friendly environment, enabling students to gain practical and contemporary knowledge of the industry and foster a forensic perspective in managerial decision-making.

At SMS, we encourage innovation and thinking outside the box. Our graduates are valued by recruiters for their Intellectual Abilities, Technical & Investigative Skills, and Critical Thinking.

I invite you to visit our website to learn more about our programmes and discover more about the School of Management Studies.

### **Prof. (Dr.) S. O. Junare**

Director (Gujarat Campus) & Dean, SMS  
National Forensic Sciences University

## FROM DESK OF THE ASSOCIATE DEAN

India needs to keep up with the fast pace and lead the world in technology and development. Rapid technological advancements have presented significant challenges to academic institutions to train multiple skilled individuals who can meet the increasing needs of various industries. At the School of Management Studies, we have designed our programmes and curriculum to bridge the gap between academia and industries while recognizing their growing and complex needs.

One of the greatest strengths of our school is our highly qualified, experienced, and research-oriented faculty. The institute prioritizes the all-round development of students, and thus, the courses are structured to cover both theoretical and practical aspects of the curriculum. We continuously scrutinize our programmes to ensure that they match the changing demands of the industry.

Our institute has a unique culture that emphasizes appropriate pedagogy through functional perspectives of Management, Case Study, Group Discussion, Expert Sessions, Workshops, Internships, and more, to ensure the growth of students into proficient professionals who can contribute to innovations. We strive to support each students' individual journey.

At this moment, we welcome all relevant stakeholders to explore our site, contact us, and be part of this exciting journey. We look forward to welcoming you to one of our vibrant campuses.

### **Dr. Haresh Barot**

Associate Dean, SMS  
National Forensic Sciences University

## SCHOOL OF MANAGEMENT STUDIES

The School of Management Studies (SMS) is a constituent school of the National Forensic Sciences University that places a greater emphasis on management education beyond the realm of traditional business management. Its objective is to meet the requirements of businesses, industries, and professionals by providing quality education, research, consultancy, and other professional services. In light of the rapidly changing economic environment and the impact of globalization, the school is committed to introducing international standards into all aspects of its activities. The school made significant contributions to management in various areas that are relevant to practitioners, policy-makers, and the wider community.

Currently, the school offers various graduate and post-graduate programmes, including MBA (Executive), MBA in Forensic Accounting and Fraud Investigation, MBA in Cyber Security Management, MBA in Hospital and Healthcare Management, MBA in Business Analytics and Intelligence, and BBA-MBA (Integrated). The school has gained recognition for providing quality education and active research while also fostering holistic development among students through a range of engagement tools such as Credit Based Systems, Continuous Evaluation, Blended Learning, active use of MOOCs, Specialization & Elective Subjects, Expert Lectures, Soft Skills Development, Industrial Visits, Industry Projects, Training & many more.

Furthermore, the School conducts demand-driven professional courses and offers a dynamic curriculum, a talented pool of faculty members, and state-of-the-art infrastructure. It also provides need-based professional training to Chartered Accountants, Bankers, Financial Institutions, and other officials involved in the field of justice delivery system both in India and abroad.

# PROGRAMME OUTLINE

## **MBA-Executive (Specialization in Forensic Accounting & Fraud Investigation)**

MBA (Executive) programme is tailored to meet the evolving requirements of the upcoming generation of business leaders. The leaders of the future should be equipped to capitalize on the transformations driven by globalization and digitalization while preparing for significant disruptions in their industries. It is intended to equip participants with the necessary tools to improve their leadership skills in their respective fields and expedite their career growth.

This programme is distinctive in its content and approach, allowing professionals to become more strategic, collaborative and adaptable, while also cultivating a global perspective in their business outlook. It will help business executives make a more significant impact within the company, make better decisions and prepare them for more significant responsibilities and leadership roles. The course has been developed in such a way that even a person with no prior management experience can enroll and learn easily.

## **MBA - Forensic Accounting and Fraud Investigation**

The field of forensic accounting is rapidly expanding and is among the most in-demand careers in accounting. With the increasing number of fraudulent activities and financial crimes, the demand for forensic accountants is on the rise. MBA in forensic accounting and fraud investigation programme is designed to focus on the Prevention, Detection, Deterrence and Investigation of financial fraudulent activities. Graduates of this programme will have the skills and knowledge to detect, investigate and report on financial crimes to executive management teams and other investigative agencies.

This programme covers contemporary topics such as Fraud Prevention, Risk Management, Risk Assessment, Financial Statement Analysis and Legal and Regulatory Compliance for the early detection of frauds. Forensic Accounting, Data Analytics, Digital Forensics, Forensic Document Examination and Corporate Tax are some of the integral subjects of the curriculum. The programme helps students broaden their knowledge base and widen their skill set, preparing them for career opportunities in Multinational Companies, Banks, Insurance Companies, Financial Institutions, Law Enforcement Agencies, and many other fields.

# PROGRAMME OUTLINE

## MBA - Cyber Security Management

In recent times, business leaders have come to recognize that information security is not solely a technical concern. To effectively and efficiently manage a company, careful assessments of risks must be made and a well-thought-out strategy for allocating resources, funds and personnel must be implemented to maximize benefits. Managers of cyber security operations are responsible for this allocation of resources, making them a critical component of cyber security control and compliance.

These management positions require not only a strong understanding of the technical aspects of cyber security but also an understanding of how cyber threats can impact a business, as well as the ability to assess and manage the risks of potential attacks. Combining a solid business background with knowledge of cyber security can enable professionals to analyze the risks associated with different types of cyber threats and apply appropriate resources to manage those risks.

The objective of the MBA in Cyber Security Management programme is to equip students with the knowledge and skills necessary to create and execute efficient cyber security strategies within organizations. Upon completion of this programme, students will have the expertise to establish and supervise security controls and plans & will be well-suited to positions within multinational companies.

## MBA - Business Analytics and Intelligence

The School of Management Studies offers a two-year full-time master's programme, MBA in Business Analytics and Intelligence for individuals who wish to specialize in Data Analytics and Intelligence. The programme curriculum combines traditional courses with modern business analytic tools to provide students with a comprehensive understanding of pattern analysis, data modeling and the ability to present findings in a global context.

The course aims to develop professionals in the field of business analytics to meet the growing demand for skilled individuals who can work with big data, which has become increasingly important due to the rapid advancement of technology and the need for digital data in the business world.

This programme is suitable for those who are interested in exploring data and business analytics in-depth. Graduates of this programme may pursue careers as Data Analysts, Business Analysts, Financial Analysts, Consultants, Managers, Fraud Analysts, Data-base Administrators and IT Professionals in various government and private organizations.

# PROGRAMME OUTLINE

## MBA - Hospital and Healthcare Management

The MBA programme in Hospital and Healthcare Management is a specialized course that focuses on equipping students with business and management skills specific to the healthcare industry. Its goal is to train future healthcare industry leaders by combining General Management, Forensic Science and Healthcare Management Concepts and Practices.

The programme provides exclusive understanding about the forensic aspects of managing hospitals by examining healthcare service incidents, medical mistakes, and legal disputes involving healthcare providers or patients. The forensic components are essential in guaranteeing patient safety, shielding healthcare providers from legal responsibility and enhancing the quality of healthcare services.

Additionally, it emphasizes the business side of healthcare, which is becoming increasingly important as healthcare organizations face financial pressures and need to operate more efficiently. The programme promotes knowledge through applied and conceptual research relevant to healthcare management, which makes it an ideal choice for those looking to increase their chances of being hired as a Manager or Administrator in Pharmaceutical Companies, Health-tech Organizations, Insurance Companies, Hospitals, Clinics, or other healthcare-related agencies.

# PROGRAMME OUTLINE

## **BBA-MBA, Five Year Integrated (Specialization in Forensic Accounting and Fraud Investigation / Financial Management / Business Analytics and Intelligence)**

The BBA-MBA programme is a five-year integrated course designed for students who have completed their 10 + 2 standard. This unique programme provides a comprehensive understanding of the business world, covering basic concepts to advanced strategies. The course structure ensures that students do not have to repeat any concepts and saves them from the cumbersome admission process for MBA after graduation.

By specializing in fields such as Forensic Accounting and Fraud Investigation, Financial Management and Business Analytics & Intelligence, students can gain expertise in their chosen area of interest at an early stage. The BBA-MBA (Integrated) programme prepares candidates to become competent leaders in their field of specialization, providing them with technical and managerial skills and competencies.
