# About Event

The Centre of Excellence for NDPS, National Forensic Sciences University is pleased to announce the celebration of World Drug Day 2024. The event, themed “**Uniting Science and Law Against Substance Abuse,**” will be held at the NFSU Gandhinagar campus on June 26, 2024. This initiative aims to integrate nationwide efforts to combat drug abuse.

This event serves as a platform to bridge the gap between scientific research and legal action, enabling meaningful conversations, sharing knowledge and ultimately driving inspiring action to combat drug abuse on a global scale. Together we strive towards “**Zero Tolerance policy against drugs to make a drug-free India**”.

## National Forensic Sciences University

The National Forensic Sciences University with the status of an Institution of National Importance is the world’s first and only university dedicated to forensic, behavioral, cybersecurity, digital forensics, forensic engineering and allied sciences. It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world.

The Centre of Excellence for Narcotic Drugs & Psychotropic Substances at NFSU, Gandhinagar, Gujarat, is a state of art facility dedicated for the analysis of narcotics drugs, psychotropic substances, and designer drugs/novel psychoactive substances.

CoE-NDPS is recognized for its adherence to the highest international standards, having received **ISO 9001:2015 certification** and **ISO/IEC 17025:2017 (NABL) accreditation**. It employs cutting-edge technology to analyze new designer drugs, precursor chemicals, and impurities found in substances seized by various law enforcement agencies. The Centre also assists different law enforcement agencies in systematic crime scene investigations.

Furthermore, CoE-NDPS is committed to enhancing the skills of law enforcement officials and forensic scientists through specialized training programs. The centre is also instrumental in research, addressing emerging trends in illicit drug production and usage.
