National Forensic Sciences University

The National Forensic Sciences University with the status of an Institution of National Importance is the world's first and only University dedicated to Forensic, Behavioral, Cybersecurity, Digital Forensics, and Allied Sciences. It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world.

School of Medico-Legal Studies

The School of Medico-Legal Studies was established mainly to create professionals in the field of medico-legal sciences and other allied disciplines. The school is mandated to impart education, research, training and consultancy in the areas of medico legal and medico-social and other allied areas. This school has come into existence for the effective teaching and learning with excellent advances in human bio sciences in all the areas pertaining to the investigation of crime against individuals. This also has extended its ambit in imparting skills and knowledge with the creation of professional experts for the service to the humanity.

About the Symposium

The International Symposium on Forensic Human Identification brings together forensic experts, researchers and various participants in the field of medico-legal investigation, as well as students and academic staff from Indian and International universities. This conference offers a great forum for discussing the most recent advancements in forensic science and practice. The symposium is a fantastic platform where professionals and students from across the globe can debate interesting case studies and share ideas on the latest forensic science techniques and best practices, adding a fresh perspective to medico-legal investigations. Forensic experts, Medico-legal professionals and Scientists from India and abroad will be invited for knowledge sharing in the topics of -

- Forensic Identification
