

One day National Seminar “NEW FRONTIERS IN NDPS: CHALLENGES AND INNOVATION”

The One Day National Seminar on "New Frontiers in NDPS (Narcotic Drugs and Psychotropic Substances): Challenges and Innovations" aims to bring together academicians, researchers, forensic professionals, and industry experts to discuss emerging trends in the NDPS domain. With the rise of novel psychoactive substances, evolving regulatory challenges, and advances in analytical and forensic methodologies, the seminar will highlight innovative and interdisciplinary approaches in NDPS research and enforcement. The event promotes knowledge exchange, collaboration, and solutions to contemporary challenges in forensic toxicology and drug analysis.

LIMITED NUMBER OF SLOTS FOR E-POSTER/ORAL PRESENTATION AVAILABLE

- NDPS and emerging drug challenges
- Forensic Toxicology
- Novel Psychoactive Substances (NPS)
- New Analytical Tool for NDPS
