# One Day National Seminar on "Bridging Basic Research and Forensic Biology: From Bench to Crime Scene"

5<sup>th</sup> March 2026 (Thursday) 9:30 Onwards

## About the Seminar

This seminar aims to bring together academicians, researchers, forensic professionals, and students to provide a platform for the exchange on emerging trends and contemporary challenges in life sciences that can help in advancement in forensic biology.

With rapid advances in life sciences and growing complexities in biological evidence analysis, the field has become increasingly dynamic and multidisciplinary. This event promotes knowledge exchange, interdisciplinary collaboration, and meaningful academic engagement, especially for students aspiring to build careers in forensic sciences.
