## ABOUT IAFO

The Indian Association of Forensic Odontology (IAFO) is the largest and oldest professional organization for forensic dentistry in India, formed in 2000 by a group of dentists led by Dr. (Late) J.G. Kannappan. Registered in 2002, it has over 470 members, including dentists, forensic scientists, pathologists, police, lawyers, and other professionals involved in crime investigation and identification using dental evidence. The objectives of IAFO include promoting forensic odontology as a career, providing expert services to the government, encouraging research and development, and offering continuing education through conferences, seminars, and workshops. . It publishes the Journal of Forensic Dental Sciences and became a member of the International Organisation for Forensic Odonto-Stomatology (IOFOS) in 2011. The IAFO's mission is to uphold the highest ethical standards in the collection and examination of odontological evidence and to facilitate knowledge exchange within the dental and forensic community.

## ABOUT NFSU

National Forensic Sciences University (NFSU), established in 2001 in Gandhinagar, Gujarat, is India's first university dedicated to forensic sciences. It offers undergraduate, postgraduate, and doctoral programs in forensic science, criminal law, cybersecurity, and related fields. NFSU aims to be a global hub for forensic science education, research, and innovation. Its mission is to provide quality education and practical training, developing skilled professionals for justice administration and national security. The university emphasizes academic excellence, interdisciplinary research, and partnerships with law enforcement agencies. NFSU also fosters ethical standards and hands-on training through advanced labs and industry collaborations, contributing to national and international forensic policies.

## REGIONAL PROFILE

India, known for its vibrant culture, rich history, and diverse landscapes, offers endless exploration through its traditions, festivals, and warm hospitality. Gujarat, on the western coast, blends history, culture, and stunning landscapes. It is home to the world's tallest statue, the Statue of Unity, and the Rann of Kutch, famous for its white desert and Rann Utsav festival. Historic sites like Lothal, Modhera, Somnath, and the Gir Wildlife Sanctuary add to its charm. Gandhinagar, the capital of Gujarat, is a well-planned city 23 kilometres north of Ahmedabad. Named after Mahatma Gandhi, it is renowned for its greenery, wide roads, and modern infrastructure. As the state's administrative hub, it offers a peaceful urban experience with parks, temples, and cultural institutions.

## MESSAGE FROM THE PATRON-IN-CHIEF

Dear Delegates

It is with immense pride and great pleasure that I cordially welcome you all to the 2nd International and the 22nd National Conference of the Indian Association of Forensic Odontology, hosted at the prestigious National Forensic Sciences University (NFSU), Gandhinagar. This multinational colloquium brings together some of the brightest minds in research, academia, industry, and government sectors to share knowledge, discuss groundbreaking advancements, and collaboratively address the challenges of our times.

At the National Forensic Sciences University, we pride ourselves on being a global pioneer in Forensic Sciences, Security, and allied fields. Over the years, NFSU has expanded its expertise beyond Forensic Sciences, embracing domains such as Odontology, Nursing, Cybersecurity, Artificial Intelligence, Law, Behavioural Sciences, and Environmental Forensics. As an Institution of National Importance, NFSU boasts state-of-the-art laboratories, advanced research facilities, and a world-class academic environment. In recent years, NFSU has significantly expanded its global footprint through several international collaborations and Memorandums of Understanding (MoUs) with leading academic institutions, research organizations, and industry leaders across the globe.

This conference is a testament to our commitment to fostering innovation and intellectual growth. NFSU empowers students and professionals through international collaborations, training programs, and workshops, providing a platform for academic and professional development. Our programs bridge the gap between theory and practice, equipping professionals in forensic science, law enforcement, military, and related fields with the latest skills to tackle complex challenges, all while upholding the highest ethical standards. This conference is not just an event but a journey of discovery. The carefully curated sessions, thought-provoking panel discussions, and research presentations will provide valuable insights and spark meaningful dialogues. I encourage each of you to engage wholeheartedly, ask questions, and build connections that will extend far beyond this conference itself. Your contributions exemplify the spirit of collaboration and innovation that this university stands for.

Once again, a warm welcome to the vibrant State of Gujarat, the beautiful city of Gandhinagar, the esteemed National Forensic Sciences University (NFSU), and the distinguished 2nd International and 22nd National IAFO Conference. I hope your time here will be intellectually stimulating, professionally rewarding, and personally fulfilling.

Regards,

**Dr. J. M. Vyas (Padma Shree Awardee)**  
Hon'ble Vice-Chancellor, NFSU  
Patron-in-Chief

## MESSAGE FROM THE ORGANIZING CHAIR

Greetings,

On behalf of the Organizing Committee, I am truly delighted and honoured to welcome each and every one of you to the 2nd International and 22nd National Conference of the Indian Association of Forensic Odontology (IAFO), a premier platform dedicated to uniting leading professionals, esteemed researchers, academicians, practitioners, and aspiring students from across the globe.

This forum is dedicated to fostering the exchange of knowledge, sharing of pioneering research, and encouraging meaningful collaborations that help shape the future of forensic dentistry and related sub-disciplines. This conference showcases a wide array of informative sessions comprising of sub-themes including Forensic Odontology, Forensic Anthropology, Forensic Medicine, Toxicology, and various other domains. These sessions are meticulously planned and will be conducted by distinguished experts who have significantly contributed to their respective fields and continue to push the boundaries of innovation and inquiry. The scientific program features a compelling mix of keynote addresses, plenary talks, expert panel discussions, interactive workshops, oral and poster presentations, and various networking opportunities. Each element of the program is designed to stimulate thought, promote discussion, and encourage active engagement among delegates.

As we gather here in pursuit of academic excellence and professional growth, we also invite you to make the most of your time here to experience the unique charm and cultural richness of our beautiful host city. Take this opportunity to connect with your peers, explore new perspectives, and build long-lasting relationships that may pave the way for future collaborations. Whether you are a seasoned professional, an academic, a budding researcher, or a student just beginning your journey, this conference offers something valuable for everyone. It is our sincere hope that you leave this event inspired, enriched, and motivated to contribute even more passionately to the world of forensic odontology.

Once again, I would like to welcome you all to be a part of this educational fair and look forward to embarking on a fulfilling and an inspiring experience together.

Thank you for being a part of this momentous event.

Warmest regards,

**Prof. (Dr.) G. Rajesh Babu**

## PRE-CONFERENCE COURSES

### DENTAL AGE ESTIMATION IN ADULTS

Age assessment from adults' teeth is based on regressive changes. These can be observed on extracted teeth, radiographs of teeth or following laboratory measurements. Different techniques are required in different circumstances. Some of the principles and methods will be demonstrated with practical exercises.

**Dr. Sigrid I. Kvaal**

### MASTERING THE STAND: A REALISTIC MOCK TRIAL FOR EXPERT WITNESSES

This mock trial workshop offers forensic professionals practical exposure to courtroom procedures, bridging theoretical knowledge with real-life application. Participants will engage in presenting evidence, cross-examination, and understanding courtroom ethics. The course aims to build confidence in expert testimony while exploring the role of forensic odontology within the new Indian criminal laws.

**Dr. Dhvani Patel**

### FORENSIC DENTAL GENETICS

The pre-conference course on Forensic Genetics covers advanced DNA profiling methods and their application in forensic casework. It includes practical insights into genetic markers, population databases, and emerging technologies in forensic science.

**Dr. Bhargav Patel**

**Dr. Malay Shukla**

### TRACE ELEMENT PROFILING IN TOOTH DENTINE FOR FORENSIC AGE AND SEX ESTIMATION

Explores advanced forensic age and sex estimation using trace element profiling in dentine, leveraging ICP-MS/MS for high-precision analysis. Participants will examine how environmental and biological factors shape element patterns in teeth over time.

**Dr. Bhoomika Patel**

**Dr. Akanksha Singh**

### BONES & BITES: DISTINGUISHING HUMAN FROM NON-HUMAN REMAINS

This session delves into distinguishing human from non-human skeletal and dental remains using osteological, histological, and comparative methods. Emphasis will be placed on forensic implications, including scavenging effects, bite mark analysis, and species-specific dental traits.

**Dr. Hardi Mendpara**

**Dr. Pankaj Goyal**
