National Forensic Sciences University
- Delhi Campus

ABOUT US

The Institute of Criminology and Forensic Science was established in 1972 by the Government of India within the Bureau of Police Research and Development, following recommendations by the University Grants Commission (UGC). Its purpose was to integrate Criminology and Forensic Science into university education. Initially offering training courses for senior officers, it became an independent department under the Ministry of Home Affairs in 1976. Since then, it has trained over 34,000 officers from various sectors and countries and conducted numerous research projects. In 1991, it was upgraded to a National Institute and renamed Lok Nayak Jayaprakash Narayan National Institute of Criminology and Forensic Sciences in 2003. In 2020, the government elevated its status to a National University, establishing the National Forensic Sciences University (NFSU) with multiple campuses across India, including in Gujarat, Delhi, Goa, Tripura, Bhopal, Guwahati, Pune, Manipur, Dharwad & Uganda with over 5000 students enrolled in various courses.

ABOUT SEMINAR

The objective of this seminar is to serve as a platform for interdisciplinary discussions and knowledge sharing at the intersection of emerging technologies, legal frameworks, and governance structures. The following topics will be covered during the seminar -

- Artificial Intelligence & Machine Learning
- Natural Language Processing Techniques
- Graph Neural Network
- Data Science and Legal Data Analytics
- Predictive Justice: AI-powered Justice
- Governing AI systems in India
- Legal Information Retrieval
- Legal Document Summarization
- Open NyAI: Building Open AI Systems
- Towards Modernizing Indian Legal System using AI
