One Day National Seminar

“Strengthening Wildlife Protection through Forensic Science”

The National Seminar on “Strengthening Wildlife Protection through Forensic Science” seeks to provide a platform for researchers, forensic scientists, wildlife experts, and law enforcement professionals to deliberate on the challenges associated with wildlife crime and the evolving role of scientific investigation in addressing them. The seminar aims to encourage interdisciplinary dialogue, highlight advancements in wildlife forensic techniques, and emphasize the importance of scientific evidence in supporting effective wildlife conservation, investigation, and legal enforcement.
