ORGANIZING

ONE DAY WORKSHOP ON NMR SPECTROSCOPY

February 19, 2026

About NMR

- NMR (Nuclear Magnetic Resonance) spectroscopy is a powerful and indispensable analytical technique.
- It is widely used for molecular structure elucidation.
- Applications include organic compounds, polymers, food analysis, and forensic samples.
- NMR provides detailed information on the physicochemical, electronic, and structural properties of molecules.
- The technique has revolutionized modern science and medicine through its broad analytical capabilities.

Workshop Benefits

- Guidance from experts
- NMR fundamentals made simple
- Structure identification practice
- Live demos with real samples
- Build practical confidence
- Software training included
- Interactive Q&A
- Certificate provided
